ASX - WEEKLY REPORT

Week Ending Friday 3rd May 2013

Currency – AUD

There were 0 entry and 1 exits for the ASX last week.

Of the 5 open positions on ASX currently, 3 have the trailing stop between the entry and current value protecting profit and 1 of the remaining 1 have their stops closer to the entry reducing the trade risk.

There seems to be a lot of increased volatility creeping back into the ASX, Increased Range of Movement & volume with no really clear direction in most cases, so the prudent thing to do is to observe until we start getting clear direction again.
