

# DAILY FUTURES

## Thursday 8th January 2015

Currencies – EUR, GBP, USD

---

There are 0 new orders for today.

---

### Entries:

### Exits:

The colour coding we are currently using is as follows:

Amended orders or stops

Retained Orders or stops – no change

New working orders

Immediate action required

Short Sell

## OPEN POSITIONS:

**ROLLOVERS: Code      Contract    ACTION    Action      NEW      Expiry**

Rollover needs to occur because the contract expires on a specified date and needs to be either sold or settled. To Roll a contract over is actually a misnomer - the process is to sell the current contract at market value and buying the next contract at market value.

**STOPS:              Code              Contract    OLD              ACTION    NEW              EXPIRY**

### Amended

Robusta Coffee    LRC    RCH5-Mar 15    1867              Amend    1898              29-01-14

For those who wish to use CFD's over the Futures Contracts to reduce their trade risk, the following CFD's are available:

Robusta Coffee    No CFD

### Retained

For those who wish to use CFD's over the Futures Contracts to reduce their trade risk, the following CFD's are available:

## **WORKING ORDERS:**

## **CANCELLED ORDERS:**

Brent Crude Oil, Nymex Crude, Gasoil, NY ULSD, Gasoline

Name: Code Contract Direction Entry Stop Loss Expiry

## Amended

## Retained

For those who wish to use CFD's over the Futures Contracts to reduce their trade risk, the following CFD's are available:

### NEW ORDERS:

Name Code Contract Direction Entry Stop Loss Expiry

## Trade Risk and Margin

We have been including the Trade Risk in the charts for people to be able to judge the comfortable Position size to fit with their trade risk parameters.

How to read this and adapt to your individual circumstances - the number of CFD's shown is equivalent to the Futures Contract Size. Calculate your own trade risk as a ratio of the posted Contract Trade risk and adjust the number of CFD's accordingly

Name	Code	Contract	# of CFD's	Trade Risk	Margin
Robusta Coffee	LRC	RCH5 - Mar 15	1 Contract	\$800	\$1570
	No CFD				

To clear up any confusion over the OIL CFD's OILUK represents Brent Crude (British North Sea Oil and its contract code "LCO" is for London Crude Oil) and OILUS represents Nymex Light Sweet Crude (West Texas Intermediate known as both CL & WTI).

The Futures Contract for Heating Oil was renamed from Heating Oil to NY Harbour ULSD, the Code for this remains the same though - HO. The CFD remains the same name. There has been some confusion over this change.
