

# DAILY FUTURES

## Thursday 18th June 2015

Currencies – EUR, GBP, USD

---

There were 0 entry and 0 exits

There is 1 new order for Daily Futures.

---

### Entries:

### Exits:

The colour coding we are currently using is as follows:

Amended orders or stops

Retained Orders or stops – no change

New working orders

Immediate action required

Short Sell

## OPEN POSITIONS:

**ROLLOVERS: Code      Contract    ACTION    Action      NEW      Expiry**

Rollover needs to occur because the contract expires on a specified date and needs to be either sold or settled. To Roll a contract over is actually a misnomer - the process is to sell the current contract at market value and buying the next contract at market value.

**STOPS:              Code              Contract    OLD              ACTION    NEW              EXPIRY**

### Amended

### Retained

Cotton	CT	CTV5-Oct 15	65.71	Amend	65.71	08-10-2015
--------	----	-------------	-------	-------	-------	------------

For those who wish to use CFD's over the Futures Contracts to reduce their trade risk, the following CFD's are available:

Cotton	No CFD
--------	--------

## **WORKING ORDERS:**

## **CANCELLED ORDERS:**

Name: Code Contract Direction Entry Stop Loss Expiry

## **Amended**

## **Retained**

## **NEW ORDERS:**

<i>Name</i>	<i>Code</i>	<i>Contract</i>	<i>Order</i>	<i>Entry</i>	<i>Stop Loss</i>	<i>Expiry</i>
Live Cattle	LC	LCQ5-Aug 15	Sell	149.35	151.90	10-08-2015

For those who wish to use CFD's over the Futures Contracts to reduce their trade risk, the following CFD's are available:

Live Cattle	LIVECATTLEAUG15	Sell	149.35	151.90	06-08-2015
-------------	-----------------	------	--------	--------	------------

## **Trade Risk and Margin**

We have been including the Trade Risk in the charts for people to be able to judge the comfortable Position size to fit with their trade risk parameters.

How to read this and adapt to your individual circumstances - the number of CFD's shown is equivalent to the Futures Contract Size. Calculate your own trade risk as a ratio of the posted Contract Trade risk and adjust the number of CFD's accordingly

<b>Name</b>	<b>Code</b>	<b>Contract</b>	<b># of CFD's</b>	<b>Trade Risk</b>	<b>Margin</b>
Live Cattle	LC	LCQ5-Aug 15	1	USD\$1,020	USD\$1,320
	LVECATTLEAUG15		40,000 lbs		USD\$1,200

To clear up any confusion over the OIL CFD's OILUK represents Brent Crude (British North Sea Oil and its contract code "LCO" is for London Crude Oil) and OILUS represents Nymex Light Sweet Crude (West Texas Intermediate known as both CL & WTI).

The Futures Contract for Heating Oil was renamed from Heating Oil to NY Harbour ULSD, the Code for this remains the same though - HO. The CFD remains the same name. There has been some confusion over this change.
