

DAILY FUTURES

Monday 23rd February 2015

Currencies – EUR, GBP, USD

There is 1 new order for today.

Entries:

Exits: Wheat, Live Cattle

The colour coding we are currently using is as follows:

Amended orders or stops

Retained Orders or stops – no change

New working orders

Immediate action required

Short Sell

OPEN POSITIONS:

ROLLOVERS: Code Contract ACTION Action NEW Expiry

Rollover needs to occur because the contract expires on a specified date and needs to be either sold or settled. To Roll a contract over is actually a misnomer - the process is to sell the current contract at market value and buying the next contract at market value.

Rollover

STOPS: Code Contract OLD ACTION NEW EXPIRY

Amended

For those who wish to use CFD's over the Futures Contracts to reduce their trade risk, the following CFD's are available:

Retained

For those who wish to use CFD's over the Futures Contracts to reduce their trade risk, the following CFD's are available:

WORKING ORDERS:

CANCELLED ORDERS:

Name:	Code	Contract	Direction	Entry	Stop Loss	Expiry
-------	------	----------	-----------	-------	-----------	--------

Amended

Retained

NEW ORDERS:

Name	Code	Contract	Direction	Entry	Stop Loss	Expiry
Copper	HG	HGJ5-Apr 15	Buy	267.5	255	31-03-2015

For those who wish to use CFD's over the Futures Contracts to reduce their trade risk, the following CFD's are available:

Copper	COPPERUSAPR15	Buy	267.5	255	27-03-2015
--------	---------------	-----	-------	-----	------------

Trade Risk and Margin

We have been including the Trade Risk in the charts for people to be able to judge the comfortable Position size to fit with their trade risk parameters.

How to read this and adapt to your individual circumstances - the number of CFD's shown is equivalent to the Futures Contract Size. Calculate your own trade risk as a ratio of the posted Contract Trade risk and adjust the number of CFD's accordingly

Name	Code	Contract	# of CFD's	Trade Risk	Margin
Copper	HG	HGJ5-Apr 15	1	USD\$3,125	USD\$2,970
	COPPERUSAPR15		25,000 lbs		USD\$2,597

To clear up any confusion over the OIL CFD's OILUK represents Brent Crude (British North Sea Oil and its contract code "LCO" is for London Crude Oil) and OILUS represents Nymex Light Sweet Crude (West Texas Intermediate known as both CL & WTI).

The Futures Contract for Heating Oil was renamed from Heating Oil to NY Harbour ULSD, the Code for this remains the same though - HO. The CFD remains the same name. There has been some confusion over this change.
