For those who wish to use CFD's over the Futures Contracts to reduce their trade risk, the following CFD's are available:

NEW ORDERS:

Name Code Contract Direction Entry Stop Loss Expiry

To clear up any confusion over the OIL CFD's OILUK represents Brent Crude (British North Sea Oil and its contract code "LCO" is for London Crude Oil) and OILUS represents Nymex Light Sweet Crude (West Texas Intermediate known as both CL & WTI).

Heating Oil has been renamed NY Harbour ULSD for the Futures Contract, however the name Heating Oil remains for the CFD, hence the different names in the order area, it is the same instrument.
